

 **CHARGING OUTLETS & PADS**

 **BATTERY CHARGE INDICATOR**

 **AUTOMATIC LIGHTS**

 **VANDAL RESISTANT**

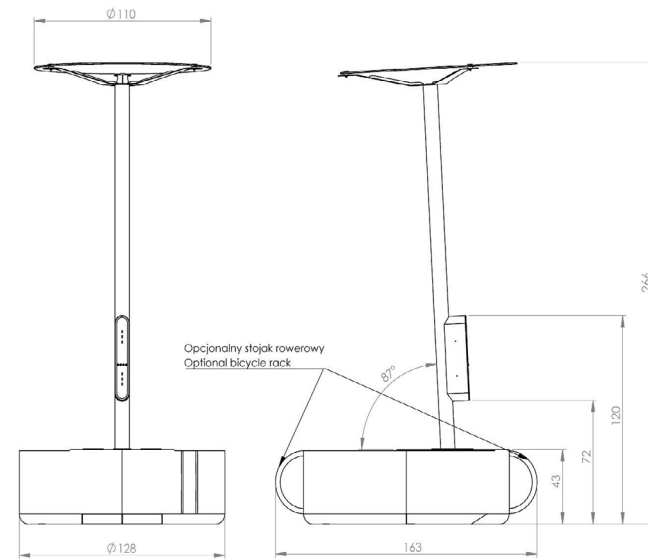

UNIVERSE | SOLAR CHARGING STATION

DESCRIPTION

A whimsical and colorful charging station with an impressive array of 6 USB ports and 2 wireless charging pads, incorporating a handy bench seat. The overhead solar panels are less prone to vandalism than flat solar benches and include LED lights for nighttime illumination.

The solar charging station forms parts of the expansive Universe range of street furniture which includes round and curved benches and planters.

These unique benches look great on their own but are most eye catching when combined with other seating units in the Universe range to create larger, integrated seating installations. These colorful units with their minimalist design blend perfectly into modern architectural spaces, creating visually exciting places to meet, relax, recharge and enjoy.

FEATURES

- Option of powder coated steel in any RAL color or sleek stainless-steel finish
- Perfectly integrates with other seating in the 'Universe' range of street furniture
- 6 x USB charging outlets plus 2 x Qi charging pad
- Overhead solar panels minimize danger of damage or vandalism
- Battery charge indicator indicates state of available power
- Ambient LED lights surrounding the USB ports switch on automatically when darkness falls
