

## SEDI CONNECT | SOLAR SEATING UNIT

Sedi Connect is much more than just a phone charging station. It offers shelter from the sun and rain, a seat for resting and relaxing, a place to read and work (even at night), a focal point for community gatherings, an information hub and a highly visible advertising site.

The unique, fluid, wrap-around solar equipped seating unit, incorporates state of the art technology and is constructed exclusively with sustainable building materials, offering a combination of comfort, safety and utility.

Sedi Connect offers the ultimate eye-catching, solar equipped seating for large, busy public spaces, especially with active nighttime activities, where reliable, extended performance is essential.
