

ART NOUVEAU | SOLAR POWERED BENCH

With a steel frame and wood trim surrounding solar panels on the seat, this Art Nouveau style bench brings high-tech convenience to traditional bench seating.

All the features expected of solar charging benches - USB charging outlets, automatic under bench lighting and Wi-Fi capability (optional) – are incorporated into this elegant bench which blends perfectly with similar style traditional seating in any park setting.

The powder coated frame can be supplied in any RAL color and you have a choice of lacquered softwood or oiled hardwood for the wood trim. Customized logos can also be engraved on the front panel of the bench.
