

SCANDIK | SOLAR POWERED BENCH

A distinctive 'T' shaped solar bench in a timeless, minimalist style which integrates perfectly in any urban street setting.

Standard features include 2 x USB charging outlets, a wireless induction charging pad and ambient under bench lighting. Available in either brushed stainless steel or powder coated galvanized steel in any RAL color.

LED strips on one side of the bench illuminate the bench at night, while the other side of the bench remains open for easy maintenance via an inspection hatch.
