

SCANDIK | SOLAR WORKSTATION

A sleek, modern solar workstation with overhead solar panels offering both a comfortable outdoor workspace and a convenient charging station for multiple mobile devices.

Overhead lights enable the workspace to be used after dark and either low or high tables can be selected depending on specific needs.

A central trough serves as a receptacle for plantings which can be trained to grow up a wire screen.

The Scandik charging workstation forms part of an extensive range of fully integrated furniture including color-coordinated single bench seats, full length bench seats with or without backs, planters, litter bins, tables and information boards.

FEATURES

- Space efficient workspace design
- Overhead lights permit working at night
- Central panel can be used to grow climbing plants
- Position of solar panels minimizes potential damage or risk of vandalism
- Co-ordinated range of bench seating ensures workspace never looks out of place
- Optional low or high tables extend versatility for different applications
- Can be powder coated in any RAL color
